

VIRO[®]

INFINITE POSSIBILITIES

FIBER CATALOG

We Are Your #1 Tropical Architecture Specialist. We Provide 100% Recyclable, Strongly Durable, and Highly Customizable, Eco-Friendly Materials.

INTEGRITY

PT. Polymindo Permata, launched as a brand Viro in 1998, is based in Indonesia and has gained a global market of furniture and tropical building industry in manufacturing new developed material all-weather wicker and thatch.

TECHNOLOGY

We intend to draw a powerful line between craftsmanship and technology to full satisfaction of our customers.

SUSTAINABILITY

We understand that synthetic material industry can have a profound social and ecological impact. We always had a vision for the company that went beyond establishing a business.

Viro is the premiere provider of high end synthetic fibers designed for outdoor use; yet more than beautiful enough to use indoors. Our fibers are crafted out of natural like yet durable High Density Polyethylene, which means it is non-toxic and 100% recyclable. Viro fibers is the greener solution for all-weather wicker outdoor applications.

The synthetic & stabilized fibers are built to resist extreme humidity, high heat, heavy downpour, and other odd weather conditions.

Engineered to withstand sun exposure and temperature fluctuations, VIRO fibers retains its polished and color through years of outdoor use

Environmentally responsible and highly customizable, VIRO's signature all-weather fibers are used by top international designers and furniture brands worldwide.

Furniture made from VIRO fibers can be left outside year round without fading or damage from sun, rain, snow, salt water, or chlorine. In addition to its remarkable strength and beauty,

VIRO fiber is environmentally friendly. No toxic chemicals are needed to maintain the product - it cleans easily with mild soap and water and is pest and fungus-free.
